

Digital Higher Education Consortium of Texas

Ensuring Equity Through Collaboration

For classes not available at Lee College, The Digital Higher Education Consortium of Texas (DigiTex) offers students the opportunity to take a course from a remote college while enrolling at their home college that provides counseling, library services, and testing sites.

DigiTex now partners with Acadeum for more effective and efficient course sharing in Texas. For more information, contact your Lee College advisor.

Find course listings at [Acadeum](#).

Getting Started

Students must contact the distance education counselor either through [email](#) or stopping by the [Counseling Center](#), in order to reserve a spot in the class of their choice.
