What are the benefits in the Federal Direct Loan Program?

A guaranteed source of funding for student loans.

The option of an income-contingent repayment plan or an income-based repayment plan when a student enters repayment. This means a student has the option of ensuring that the loan repayment amount will always be affordable based on what the borrower's income will allow.

Students in the Direct Loan Program who enter into public service jobs can have any remaining balance on the loans forgiven after 10 years of repayment while in public service work. (While this option does not exist in the FFELP, students who borrowed in that program can consolidate their loans into the Direct Loan Program in order to take advantage of this forgiveness.)

The interest rate for the parent PLUS loan and for the graduate student PLUS loan is 7.9 percent in the Direct Loan Program, compared to 8.5 percent in the FFELP.

Effective July 1, 2009, the government pays 1 percent of your origination fee at disbursement, commonly called the loan rebate benefit. You are eligible to keep this benefit as long as you make the first 12 monthly payments of your student loan on time. The net disbursement of your loan will be 99.5 percent of the principal. There is a 0.25 percent interest rate reduction for automatically debiting your payment from your checking account when you begin repayment.

How does this affect my parent's Parent PLUS Loan?

Parents who wish to borrow a Federal Direct Parent PLUS Loan will need to complete the Federal Direct Loan Promissory Note for PLUS Loans and return it to our office by the published deadline dates.

Frequently Asked Questions

Why did the College choose to move into the Federal Direct Loan Program?

Volatility in the credit markets and reductions in lender subsidies have caused many lenders to stop offering borrower benefits and other services. The Direct Loan program is not affected by changes in the economy and provides a more stable loan process.

What will happen to the existing loans that I have borrowed from other lenders?

After graduation, you have a choice. You may either make individual payments to your previous lender(s) and to the Department of Education for your Direct Loans, or you can consolidate your loans into one simple payment. You may either consolidate all your loans with your previous lender, or with the Department of Education. However, many private lenders have discontinued their consolidation services.

If I have previously borrowed under the FFELP, do I have to complete another Master Promissory Note (MPN)?

Yes, you must sign a new Federal Direct Loan Master Promissory Note. This will be the last promissory note you will have to sign as long as you continue to attend LEE COLLEGE. Your Federal PIN is required in order to eSign.

How and when do I complete a Direct Loan Master Promissory Note (MPN)?

You should complete a Federal Direct Loan Master Promissory Note as soon as possible if you plan to borrow a Subsidized or Unsubsidized Loan.

I have previously completed Entrance Counseling under the FFELP, do I have to complete Federal Direct Loan Entrance Counseling?

Yes, you will be required to complete Federal Direct Loan Entrance Counseling even if you have already completed Entrance Counseling under the FFELP. New borrowers will be required to complete Direct Loan Entrance Counseling.

Where can I go to consolidate my loans?

You may explore your options, as discussed above, with either private lenders or with the Federal Direct Loan Consolidation Program.

Will the change in loan programs cause my prior loans go into repayment?

No, your prior Stafford loans will not go into repayment as long as you remain enrolled at least half time.

Are there any differences in interest rates and fees between the FFELP and the Federal Direct Loan?

There are some differences. The interest rate for Federal PLUS loans is 7.9 percent in the Direct Loan program (compared to 8.5 percent in the FFELP). Interest rates for Federal Stafford Loans are the same in both programs. See the following chart for differences in fees between the two programs:

Loan Type	Gross Fee	Minus Rebate*	Equals Net Fee Charged for 2009/2010
Direct Loan – Federal Stafford	1.5%	1%*	.5%
FFEL – Federal Stafford	.5% to 1.5% (varies by lender)	N/A	.5% to 1.5% (varies by lender)

Direct Loan – PLUS	4%	1.5%*	2.5%
FFEL – PLUS	3% to 4% (varies by lender)	N/A	3% to 4% (varies by lender)

*The up-front rebate reduces the fee you pay at origination. If you don't make your first 12 monthly payments on time, the rebate amount will be added to your principal balance.
