# BOOTCAMP™

*Bringing the X-factor to fiber optic training and certification.*

## BRINGING THE X-FACTOR

The BDI FiberOptiX Bootcamp is a fast-paced, hands-on training program designed to prepare students for immediate employment in the fiber optics industry. Delivered over five intensive days, this course provides the technical skills, field experience, and nationally recognized certifications needed to install, splice, test, and maintain modern fiber optic networks.

*This bootcamp brings the X-factor to traditional training and certification—technical excellence, job-readiness, and accelerated results.*

Whether you're new to the industry, transitioning careers, or an employer seeking to onboard skilled talent, the BDI offers a direct path to success in today's fiber-connected world.

Participants will receive expert-led instruction and practical, lab-based training in core competencies aligned with real-world broadband deployment demands—culminating in three certifications from the Fiber Optic Association (FOA).

Certified Fiber Optic Technician

Certified Fiber Optic Specialist in Testing/ CFOS(T)

Certified Fiber Optic Specialist in Splicing/ CFOS(S)
