This fall, Lee College is allowing you to choose the delivery method that accommodates your goals and your learning style. Its education designed to fit your life! Four delivery methods, find the one that right for you!

Real Learning, Real Life Course Delivery Methods:

- **MyTime (Online Classes)**

Take your classes online, at any time. Our most flexible option allows you to work on coursework whenever your schedule allows, and you won't come to campus at any point.

- **LeeStream (Online on a Schedule)**

If you like the structure of a routine, this option is for you! All coursework will be completed online, but the lectures and virtual instruction will happen at specific times on certain days, just like a typical face-to-face course.

- **MyFlex Hybrid**

Technical and applied skill courses will follow a hybrid format. Most class instruction will be delivered online. Students will come to campus in small groups to complete hands-on learning and practical testing.

- **Face-to-Face**

On-campus classes in classroom/lab. Students are required to be in class at designated times. If COVID-19 conditions require the class to be moved to online learning after the semester has started, the class will shift to MyTime (asynchronous) or LeeStream (synchronous) format.

Student Support

The well-being and success of our Lee College community remain our top priority. To maximize your safety while also ensuring you have access to the support you need, we've made a number of adjustments to the way we're delivering our services. Regardless of the type of courses you choose, all Lee College students have access to the same virtual resources and support:
