

Fieldbus Foundation-Certified Training

[Register Now!](#)

As one of only six Fieldbus Certified Training Programs (FCTP) in the world, Lee College provides end-user training on multiple FOUNDATION fieldbus hosts and devices on-site. Training leads to three certifications:

FOUNDATION Certified Professional Certificate

A good fit for engineers, designers, system analysts, main instrumentation controls contractor, and start-up and commissioning specialists wanting to increase their knowledge base of design, planning, and implementation of FOUNDATION systems.

FOUNDATION Certified Technical Specialist Certificate

Designed for maintenance technicians, network technicians, vendor/contract service specialists, maintenance and contract maintenance supervisors, and in-house trainers.

FOUNDATION Certified Support Specialist Certificate

Salespeople, end-user management, estimators, operations staff, quality control specialists and reliability analysts.
